The City of Dallas and **DOWNTOWN**DALLAS are developing a strategic action plan and policy manual that will shape the next phase of our city's urban revitalization. It will address issues related to housing, development, transportation, public space, connectivity, streetlife and much more. The end result will be a guidebook to ensure our vision of a vibrant and sustainable Downtown is realized. This is a plan for our community – we want to hear from you.

Facilitated by Moore, Iacofano, Goltsman.
